EDUCATION

Hansung University
Master's Degree in Computer Engineering | 09/2026 – Present

Ajou University
Korean Language Program| 09/2024 – 08/2026

Ho Chi Minh City University of Technology
Information Security | 09/2019 – 04/2024
The degree of engineer
GPA: 3.09/4.0

WORK EXPERIENCE

VNS EXCHANGE | 07/2023 – 09/2023
Viet Nam Startup
Core: TypeScript, Solidity, HTML, CSS
Technology: ETH, Hardhat, Reactjs, OpenZeppelin, Tailwindcss

- Coded entire UI for an exchange web platform used for trading Token VNSe
- Used OpenZeppelin's ERC20 library to create a smart contract for a Token
- Deployed and verified smart contract on the Ethereum network
- Used ethers.js libraries to interact with and connect to the smart contract

NFT Marketplace | 04/2023 – 06/2023

Core: JavaScript, Solidity, HTML

Technology: ETH, Metamask, Hardhat, Reactjs, OpenZeppelin

- Researched and self-learned ETH, Solidity and OpenZeppelin frameworks
- Used OpenZeppelin's ERC721 library to create a smart contract for an NFT marketplace
- Used web3.js and ethers.js libraries to interact with and connect to the smart contract

Deploying Configuration and Security Services on Linux

02/2023 – 04/2023

Tools: CentOS 7, Windows XP, Windows 7

- Installed monitoring tools: Cacti, Wireshark, Munin
- Configured DNS, HTTP, DHCP, FTP services
- Installed NFS server, VNC server, SAMBA server, MySQL server, SYSLOG server
- Researched and installed RAID

Transactions and Transaction Verification Using Smart Contracts

10/2022 – 12/2022

Core: JavaScript, Solidity, HTML

Technology: ETH, Metamask, Hardhat, Reactjs, Tailwindcss

- Researched and self-learned ETH and Solidity frameworks through YouTube and Google
- Spent 2 weeks fixing bugs with Web3 connection issues
- Delivered a completely automated and secure smart contract using Solidity
- **3rd place winner of Hutech Got Talent competition in Group A**

CERTIFICATIONS

- 3rd Place Winner of Hutech Got Talent Competition in Group A
- Korean TOPIK 4

SKILLS

Programming Languages & Technologies:

- Solidity: Smart Contract Development
- Java: Mobile App Development
- JavaScript
- C#
- Python: basic

Soft Skills:

- English communication and reading comprehension skills
- Korean communication and reading comprehension skills
- Communication and teamwork skills
